SECRET
SECURITY INFORMATION

19 September 1952

MEMORANDUM FOR: STC/SFB 3 3
SUBJECT : George WEBER - Helmut VOGT 2 3 2

1. An operational clearance on Helmut VOGT was requested 25 January 1951 and granted 12 April 1951.
2. Due to an error in cable transmission, the Subject of above mentioned request was identified as George WEBER instead of Helmut VOGT. The Form XX and subsequent field investigation apply to VOGT instead of WEBER. It is requested that clearance records be amended.
3. VOGT was cleared for project BOULDER 10 March 1951 and cancelled 16 July 1951. It is requested that this clearance be reactivated for use under LCPBOWL.

In brief, [] said above means that there should never have been a file established on George Weber. All the info sent in on him actually applies to Helmut Vogt-error in cables from field. She requested that we transfer all material to Vogt's file and have him cleared for LCPBOWL. We then advised her that we are cancelling their clearance on George Weber even though she implied the Field is using George Weber despite the fact they never cleared him. There is such a person as Weber and that is what caused the confusion in cables but the information definitely pertains to Vogt.
